MY PORTFOLIO

Nisseem Rana Magar

Project Manager

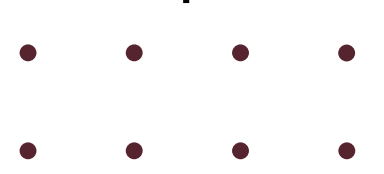

WWW.NISSEEMMAGAR.COM.NP

About me

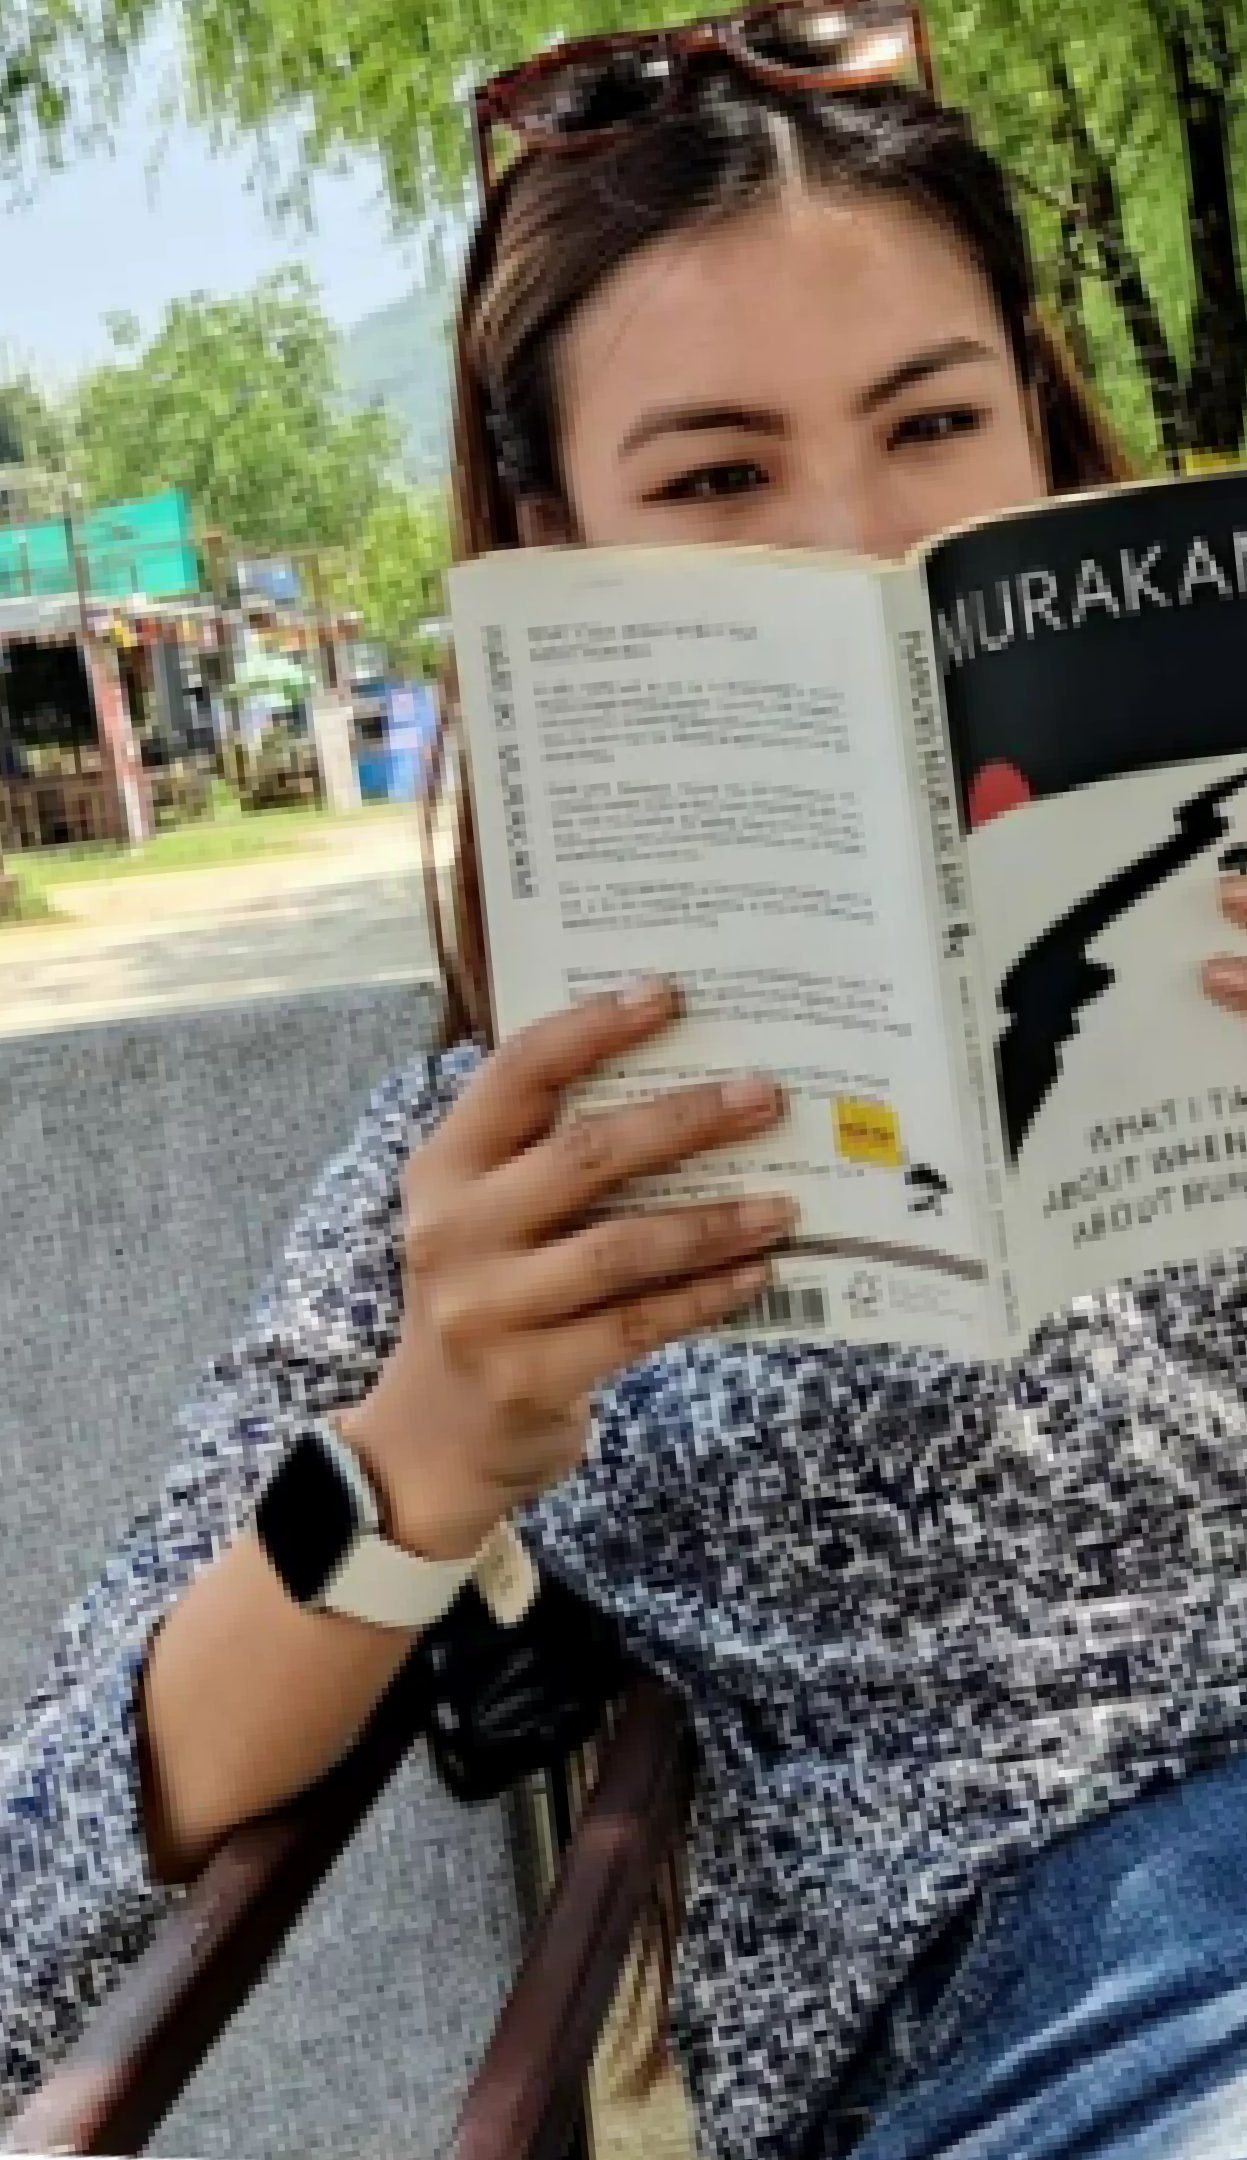

Hi, I'm Nisseem Rana Magar! I'm from Janakpur, Nepal, and I have been working as a Project Manager. I have experience in different areas of creative and web development that have shaped my skills and have given me a better perspective of the digital medium.

I'm driven by curiosity; to question, to create, to understand how things work, and to learn why. As a project manager I lead by example, supporting team members, championing for my clients, not just understanding project and business goals, but asking why those are the goals to really understand the problem and to offer the best possible solutions.

Activities

Academic Experience

My academic experience thus far has provided me with a wide range of theoretical knowledge and practical skills that will be immensely useful when pursuing my graduate degree overseas. My undergraduate degree has laid a robust foundation of core computer programming knowledge with subjects like Object-Oriented Programming in C++, Programming Technology, Mobile Apps Development, and Advance Java.

Alongside, I developed an adequate understanding of data and information management from subjects like Data Structure and Algorithms and Database Management systems. The syllabus was challenging yet insightful in accumulating the necessary knowledge of full-stack development of software systems. Correspondingly, subjects like Computer Networks and Social and Professional Issues in IT have widened my frame in viewing information technology through the lens of security concerns. Over the course, I have thoroughly enjoyed learning the design and analysis of software systems. In parallel, I acknowledge subjects like ICT Project Management and Organization and Management that opened up a window of opportunity igniting my enthusiasm to lead various semester projects by playing the role of project coordinator.

Involved in Different software development process to develop in house and out sourced project. Interacted with 75+ high-value clients.

My Expertise

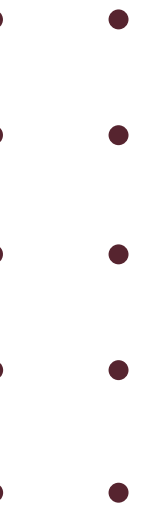

Family Picture

INSPIRATIONS

Family is the most important part of my life which motivates me to work further. In the family sandwich, the older people and the younger ones can recognize one another as the bread. Those in the middle are, for a time, the meat.

Families are the compass that guides me. They are the inspiration to reach great heights, and our comfort when we occasionally falter. Here is the image of my
